

Rapid Deployment Collaboration System

The Crestron Flex R-Series

The need to share knowledge and work collaboratively is more critical than ever. Now, the new Crestron Flex R-Series is a mobile UC System that brings collaboration to wherever it's needed most. Closing the distance between remote teams wherever they may be. Quickly. Easily. Cost-effectively. All that's required is two cables: power and network.

Put UC
anywhere
it's needed.

Rapid. Simple. Deployment.
