9 reasons why you should upgrade to new units

1. **Bring your own meeting** with ClickShare Conference and the ClickShare Bar, and enjoy the same seamless experience whether meeting face-to-face or remotely. Transform any space into a collaborative environment for your remote meetings.
2. ClickShare adapts to your personal workflow. Being **fully agnostic**, it is compatible with your own laptop, conferencing platform and a broad range of peripherals.
3. **Instant and easy collaboration**: a truly intuitive and natural user experience which allows you connect in less than 7 seconds.
4. **Share from any device**: ClickShare button, ClickShare Desktop app or via screen mirroring: Google Cast, Airplay or Miracast R2.
5. Increase engagement and participation in your meetings by working directly on your touch screen, thanks to our **touch back support**.
6. Worried about data security? You can have complete peace of mind, now that ClickShare received **ISO 27001 certification**.
7. Lost track of firmware updates? Can't get into your meeting rooms during the day? Easily maintain, manage and monitor devices with **our central management tool**.
8. **Save money** when buying the new devices at a unique, discounted price.
9. **Help maintain our planet**: the old device is recycled and the materials will be reused!

How does the Trade in work?

- Fill in a short form mentioning the amount of your old Barco devices or competitive products.
- We will contact you with more information and let you choose your new device.
- We will pick up your old devices and send you your new devices.
- Relax and enjoy your new ClickShare.
