

LG's DVLED All-in-One and Boxed Set Displays

Pioneering New Solutions In Display Technology

With the introduction of its first 136" All-In-One DVLED, LG ushered in a new category of display technology that merges convenience, brilliance, and flexibility. Now, LG's All-In-One and Boxed Set displays come with "all" you need, including the necessary DVLED panels and modules, embedded webOS system controller, built-in speakers, and wall mount, making them a breeze to install. Not one to rest on its laurels, LG has expanded its lineup to several models in a broad range of screen sizes and resolution options, with more on the way!

Benefits & Features

EXTENDABLE MULTI-SCREEN OPTIONS. The LAEC series can be installed side-by-side in the form of 1 x N or 2 x N, up to 14 individual screens each displaying its own content. The LAAA series can be also installed side-by-side in similar 1 x N fashion.

CAREFREE MAINTENANCE. LG DVLED All-in-One and Boxed Set displays feature a modular structure that enables front access serviceability for quick and easy maintenance. LG's optional ConnectedCare remote monitoring software can provide tremendous system oversight and the ability to quickly respond to any maintenance issues. And LG's optional ExtendedCare program can be purchased to extend the product warranty up to 5 years total.

ALL-IN-ONE: EASY TO ORDER, EASY TO INSTALL. Just know the size of the screen you need and resolution you want. All-in-One model SKUs are easy to deal with and have everything you need. They ship in custom, wheeled flight cases that are virtually "plug and play," requiring no complex setup.

PREMIUM VIDEO AND AUDIO. LG DVLED All-in-One and Boxed Set displays deliver brilliant images free from intersecting bezels. An embedded system controller and integrated speakers complete the package.

LG webOS™ SMART PLATFORM. The LG webOS Smart Platform provides many advanced smart features, an intuitive user interface that delivers easy navigation, and virtually seamless compatibility with leading A/V control systems.

COMPATIBLE WITH LG ONE:QUICK SHARE. LG's One:Quick Share provides simple wireless screen sharing with multiple devices by purchasing the optional One:Quick USB accessory and its associated software app. Office Mode provides convenient smart control from your PC.

BOXED SET: ONE BOX, ULTRA-EASY TO INSTALL. Boxed Sets literally give you a head-start on assembly. These ultimate "plug and play" displays provide an amazingly fast and ultra-easy setup with extra spare modules included for replacements.

LG - Leading the Way with Direct View LED

LG's DVLED All-in-One and Boxed Set displays merge the brilliance of DVLED, flexible size, simple installation options, and the convenience of an all-in-one system. They can be used in a wide range of commercial applications, residential home theaters, and even secure government control rooms, bringing DVLED into areas previously reserved for LCD displays.
