We Make Teamwork Work

Collaboration between in-office staff and remote employees can be challenging and ineffective without the right tools. **But with ViewSonic® ViewBoard® IFP62 series of interactive displays, you can create an inclusive and collaborative meeting space that brings your teams together**—whether they are in the office, at home, or both.

Featuring next generation touchscreens and integrated myViewBoard® content sharing software, our ViewBoard interactive displays help to create **smart, connected and productive spaces.**

Inclusive Meeting Hubs

Featuring next generation touchscreens and integrated myViewBoard® content sharing software, our ViewBoard® interactive displays help to create smart, connected and productive spaces.

Connect

Offering one of the best collaboration experience for Intel UNITE, Microsoft Teams, Zoom, Cisco Webex, and many more, ViewBoard IFP62 displays connect hybrid teams from any location.

Annotate

An intuitive PCAP (projected capacitive) touchscreen, incredible 4K Ultra HD resolution and an included OS allow for an incredibly natural and responsive whiteboarding experience.

Share

A flexible web interface allows multiple users to easily access online content (such as documents, images, slides, PDFs and more), and share to the ViewBoard screen with team members.

Securely Monitor and Control

The ViewSonic Manager Advanced software allows IT managers to monitor networked displays, control access, push multimedia content and more.

Crestron Connected® V2 Certified

Enhance your remote management experience with greater speed, security and flexibility with your Crestron Connected V2 certified interactive display. This device is compatible with XiO Cloud® and other popular platforms for streamlined monitoring and management. Enjoy seamless backwards compatibility with systems that use Crestron Connected V1.0.

See and Hear

Enjoy out-of-the-box collaboration with the onboard OS and integrated microphone array. You can also upgrade and build a custom interactive system with an optional ViewSonic webcam (VB-CAM-201) and Bluetooth speakerphone (VB-AUD-201) that connect in-office employees to remote workers. Remote workers can also utilize ViewSonic video conferencing monitors with built-in webcams from their home offices.

ViewBoard Accessories

Slot-in PCs

(VPC2C-W33-01-1B: Celeron G5900T / 8GB RAM, VPC25-W53-01-1B: Core i5-10500T / 16GB RAM, VPC37-W53-G1: Core i7-1260P / 16GB RAM)

Every ViewBoard display includes an on-board OS that allows for basic whiteboarding and videoconferencing functionality. With a slot-in PC, you can step up the CPU to Core i7 for increased processing power. This allows you to run complex collaboration tools such as Intel UNITE, Microsoft Teams and more, to their full potential.

Mobile mounting options

(VB-STND-001, VB-STND-007, VB-STND-008)

These sturdy rolling carts are UL and ADA compliant for safety and accessibility. Select models include motorized lift and tilt features, and provide the flexibility to hold meetings in any open space or meeting area. If you feel that your meeting is not interactive enough, or you need a visual way to express your ideas, then pull in a ViewBoard on a cart, plug it in, and start brainstorming, drawing out your ideas, and engaging your participants.

Fixed mounting options

(WMK-047-2, VB-STND-004)

These easy-to-install, fixed wall mounts, tabletop mounts, and floor stands are UL and ADA compliant for safety and accessibility. They allow you to configure your meeting areas exactly as you need to be more productive.

Webcams

(VB-CAM-201)

ViewSonic webcams enable crystal clear communication for your remote meetings. Enjoy features that will instantly enhance the way you come appear in meetings like wide field of view, automatic low-light correction and more.

Converse Speakerphone

(VB-AUD-201)

This plug-and-play Bluetooth speakerphone features an integrated microphone array with 360° omnidirectional sound pickup that delivers clear audio to all remote attendees. A USB Type-A port delivers charging power for cell phones, while its lightweight and compact form factor make it ideal for use in home offices, small meeting rooms, or for taking on the road.
